The Deepest Cut has earned the Literary Classics Seal of Approval

Joshua is trapped in a mining colony on Cypress Grove, a planet infested by creatures so deadly humans have been trapped inside their compound for decades. One wrong move and he could be dead. Escape seems unlikely; but if he can make it out alive, he'll have to contend with the colony's criminal underworld. Even then, he'll likely be ostracized as a social outcast because of his father's alleged betrayal.

A serious sci-fi read with grit and substance, this book offers so much more than it would first appear. *Driven to the Hilt: The Deepest Cut*, by DG Lamb is a wildly thrilling page-turner that will keep readers in suspense clear to the last page and beyond. Recommended for home and school libraries, *Driven to the Hilt: The Deepest Cut*, has earned the Literary Classics Seal of Approval.
